

E42 Class Newsletter Term One

Narrative Writing

A narrative is a made up story. There are lots of narratives in the world. (*Aaravi*)

We read the Gruffalo and made paper puppets. We described our puppets. (*Samih, Stephanie*)

Willy the Wimp is my favourite story and we retold the story and practised writing our own stories (*Aiden*)

Aaravi's Dolphin Story

There once was a dolphin who lived in the sea. She was very nice. People used to give her shelter when she swam onto the beach. One day a bad person came and kidnapped the dolphin and put her in a cage.

The people couldn't find the dolphin. A few days later the dolphin escaped and reached the beach. And she found shelter.

Keeping Safe We are learning to keep safe at school. We are not to hit or hurt other people, like kicking, pushing or saying mean words to each other and saying 'I am not your friend'. If we do the wrong things we can get a warning, Time Out or go to the Think Spot. We are not to push when we are in the line and we need to stay in the line and stay with the teacher when we are going somewhere. (*Dherya, Vanshika, Mariam, Shaun Milla*)

Digital Technologies

We opened the inside of a computer and looked at what was inside. We saw a fan, computer chips, mini batteries, a mother board. There wasn't any electricity. Now we know about electricity and computers.

Lucy's Dad is a Computer Scientist. He visited our class and showed us inside the computer. We saw DVD drives, wires and memory chips. (*Ethan, Amity, Lucy*)

Living Things

I brought my turtle to school. My turtle is a normal turtle. The turtle has a long neck and a hard shell. (*Noah*)

We went to Site West and saw tiny fish and a big fish in a tank. They were collected from the creek and we are going to watch them grow.

(*Zachary*)

In Maths we are learning how to problem solve and use our counting strategies. We can count by ones, some of us can count by twos, fives or tens. It is much quicker than counting by ones.

Here is a maths problem.....

We are looking after a frog. We feed the frog a cricket on Monday, Wednesday and Friday. How many crickets do we feed the frog in a week?

E42 also has stick insects and we have been comparing the life cycles of the two different animals. We have noticed that the stick insects are getting bigger. (*Stephanie*)

My Family

My family travelled to lots of countries. Mina

I have a Mum and a Dad. My Mum always exercises. My Dad works at night. My family loves me and I love them.

I have a family and My Mum works on the computer. My Dad goes to work and he also works on the computer. We learnt that families are different and can change over time. (*Mina and Raihan*)

Jade's family
