

Newsletter - Week 9, Term 1

Mawson Lakes School
W41 Kimberley's class

Overall, this term has been extraordinary as we have been building new positive relationships with others as well as growing with our classmates. Our whole class has definitely extended and expanded their learning by using a growth mindset. Most of our students have accomplished major goals already in every subject given, especially in Science and P.E.

Throughout the term some of our highlights have been:

- "On the first day of school everyone was definitely welcoming and I felt as if I belonged." Sandra
- "English was one of my highlights because I can use my imagination and it is very enjoyable at the same time." Kohen
- "In P.E I used to never like to run, but now it has all changed because I have jogged six laps which is a big achievement for me." Sasha
- "I have enjoyed making new great friendships with others that I didn't necessarily know." Samuel

The whole class definitely agrees that Kimberley is a wonderful, talented teacher and we have enjoyed working with her because she has taught us some amazing things in various subjects.

Harmony Day activities with our Buddies in Miss Lara's Reception Class

"This term I have enjoyed playing basketball with the Year six's and sevens because I like basketball and I play for two teams. When I play it at school, I can learn more skills and use it in my games". Kohen

"I enjoyed writing narratives with Sofia and Kimberley during grammar." Isaac

"I enjoyed learning new things about history, volcanoes and tectonic plates. I learnt that tectonic plates mostly create earthquakes in the Pacific Ocean (Ring of Fire)." Daniel D

"The highlight of this term was learning grammar with Sophia, writing narratives and understanding decimals in Maths with Kimberley." Jorja

"This term, Kimberley has taught me lots more about decimals and how to multiply and divide numbers by 10, 100 and 1000." Sophia

"This term I really enjoyed math with place value because I found it helpful. It helped me enjoy math which means I can get a good job." Benjamin Taggart

"This term I have enjoyed doing spelling because the activities have helped me learn the definitions and how to put them in sentences." Emma

"I enjoyed doing maths – place value using decimal points because it was very fun and easy to learn." Tan

"I enjoyed playing Dodge Ball in the gym. I have learnt about three tectonic plate disturbances which are divergent, convergent and transformative." David

"This term I've enjoyed getting to know my classmates because it's really brought us together." Annabel

"Kimberley have been an outstanding teacher. Although some people do not realise or know how to respect her, she deserves the best." Daniel B.

"I enjoyed trailing in SAPSASA soccer tryouts and fitness and also English with Kimberley and Miss Sofia." Tahir

"I have enjoyed the math place value with decimal points since it's a fun way to learn place value while helping my education." Dylan Dao

"This term I have experienced that this class has been very welcoming, understanding and unique. In the future I hope to achieve my major goals and receive high standard grades." Jovana

"My highlight of this term was when we did science on earthquakes because I have got deeper understanding now." Sandra

"This term I enjoyed doing P.E because I like doing tennis. I also enjoyed Math because I learnt new strategies like chunking." Samuel

"This term, I enjoyed learning about tsunamis and the tectonic plates in Science. I also learnt that there are five stages of the generation of a tsunami." Emily

"This term I have learnt about tsunamis. A tsunami is a fast moving chain of water which is caused by a shift of the tectonic plates." Danka

"I love to express myself through narrative writing and English has challenged me to do my best." Denver

"This term, I enjoyed doing choir activities because we got to experience different activities. I got to do fun activities with my friends." Kelly

"This term, I have learnt how to write bigger narratives and use descriptive words. I have also learnt how to multiply with big numbers." Sasha

"I like how Kimberley has made an effort to make our school work fun and interactive." Kailan

"I enjoyed playing tennis and dodge ball in P.E because it is a fun way to move around and getting physical." Mihir
