- Addition facts to 20, utilising strategies such as doubles, near doubles, counting on, combinations to 10 and bridging to 10.
- Applying this knowledge to related subtraction facts.

FRACTIONS AND TIME

- identify common uses and represent halves, quarters and eighths in relation to shapes, objects and events
- identify the date and determine the number of days between events using calendars
- recognise and read the time represented on an analog clock to the hour, half-hour and quarter-hour

SCIENCE

Physical Science

Exploring different actions to make sounds. Recognising that sound energy causes objects to vibrate.

STEM/TECHNOLOGIES

(Science, Technology, Engineering and Maths)

We will be integrating STEM throughout all aspects of the curriculum this term. Digital Technologies will be integrated across all learning areas of the curriculum to enhance student learning.

CHILD PROTECTION CURRICULUM

Students will continue to learn to identify warning signs and understand the right to be safe. They will learn about identifying their feelings, skills to engage in a range of social settings, safe and unsafe situations and risk taking.

SPECIALIST LEARNING AREAS

Specialist provider's, Michael and Des (PE), Erin and Lauren (Japanese) and Abby (Arts) are covering these subjects. You can find out more information about their programs in their specialist newsletters on the school website.

GEOGRAPHY

During both term 1 and term 2, students identify the features that define places and recognise that places can be described at different scales. They explain why places are important to people, recognising that places have meaning.

Students learn about the ways in which Aboriginal and Torres Strait Islander Peoples maintain special connections to particular Country/Place.
